AMES NATIONAL CORPORATION ANNOUNCES RECORD 2011 FOURTH QUARTER EARNINGS RESULTS

Fourth Quarter 2011 Results:

For the quarter ended December 31, 2011, net income for Ames National Corporation (the Company) increased 19.7% and totaled a record \$3,615,000, or \$0.39 per share, compared to \$3,019,000, or \$0.32 per share, for the same period in 2010. Net income increased primarily due to improvements in net interest income.

Fourth quarter net interest income increased \$547,000, or 7.5%, compared to the same quarter a year ago primarily due to interest income from a larger loan and investment securities portfolios combined with lower rates on deposits and other borrowings, offset in part by lower rates on the loans and investment securities portfolio. The Company's net interest margin was 3.58% for the quarter ended December 31, 2011, a decrease from 3.61% for the quarter ended December 31, 2010.

The provision for loan losses was \$123,000 in the fourth quarter of 2011 as compared to \$95,000 for the same period in 2010. Net loan charge offs for the quarter ended December 31, 2011 were \$83,000, compared to net loan charge offs of \$146,000 for the same period in 2010.

Non-interest income for the fourth quarter of 2011 totaled \$1,613,000 as compared to \$1,497,000 for the same period in 2010. The increase in non-interest income is primarily due to security gains of \$78,000 for the fourth quarter of 2011 as compared to security gains of \$4,000 for the fourth quarter of 2010.

Non-interest expense for the fourth quarter of 2011 totaled \$4,639,000 compared to \$4,620,000 recorded in the same period in 2010. The increase in non-interest expense can be mainly attributed to salaries and employee benefits and data processing costs, offset in part by a decrease in FDIC insurance assessments. The higher salaries and employee benefit costs are primarily due to normal salary increases, higher incentive pay, and one time personnel costs. The higher 2011 data processing costs are due primarily to increased costs associated with Internet and mobile banking. The lower FDIC insurance assessments are due primarily to lower assessment rates. The efficiency ratio for the fourth quarter of 2011 was 49.24%, compared to 52.76% for the same period in 2010.

Year 2011 Results:

For the year ended December 31, 2011, net income for the Company increased 7.4% and totaled a record \$13,921,000, or \$1.48 per share, compared to \$12,966,000, or \$1.37 per share, for the same period in 2010. Net income increased primarily due to improvements in net interest income and a reduction in FDIC insurance assessments, offset in part by an increase in salaries and employee benefits and other real estate owned costs.

For the year ended December 31, 2011, net interest income increased \$1,367,000, or 4.6%, compared to the same period in 2010, due primarily to interest income from a larger investment securities portfolio combined with lower rates on deposits, offset in part by lower rates on the loans and investment securities portfolio. The Company's net interest margin was 3.60% for the year ended December 31, 2011, a decrease from 3.74% for the year ended December 31, 2010.

The provision for loan losses was \$533,000 for the year ended December 31, 2011 compared to \$664,000 for the same period in 2010. Net loan charge offs for the year ended December 31, 2011 were \$148,000, compared to net loan charge offs of \$795,000 for the same period in 2010.

Non-interest income for the year ended December 31, 2011 totaled \$6,970,000 as compared to \$6,836,000 for the same period in 2010. The higher non-interest income is primarily due to higher trust department income and gain on sale of loans held for sale, offset in part by a decrease in service fees. The increase in trust department income was due primarily to increases in the number of customer relationships and income related to improving fair values for fee based managed assets. The increase in gain on sale of loans held for sale is due primarily to increased loan origination volume. The decrease in service charges was primarily due to lower overdraft fees due in part to regulatory changes associated with the Dodd-Frank Act.

Non-interest expense for the year ended December 31, 2011 totaled \$18,852,000 compared to \$18,221,000 recorded in the same period in 2010. The increase in non-interest expense can be mainly attributed to higher salaries and employee benefit costs and higher other real estate owned costs, offset in part by a decrease in FDIC insurance assessments. The higher salaries and employee benefit costs are primarily due to normal salary increases, higher incentive pay and one time personnel costs. The higher 2011 other real estate owned costs are primarily due to impairment write downs. The lower FDIC insurance assessments are due primarily to lower assessment rates. The efficiency ratio for the year ended December 31, 2011 was 49.80%, compared to 50.12% for the same period in 2010.

Balance Sheet Review:

As of December 31, 2011, total assets were \$1,035,564,000, a \$72,589,000 increase compared to December 31, 2010. The increase in assets was primarily due to an increase in securities available-for-sale and loans, funded primarily by a growth in deposits.

Securities available-for-sale as of December 31, 2011 totaled \$508,625,000, compared to \$469,908,000 as of December 31, 2010, mainly as a result of increases in U.S. government mortgage backed securities and state and political subdivision bonds, offset in part by a decline in U.S. government agencies.

Net loans as of December 31, 2011 increased to \$438,651,000 compared to \$418,094,000 as of December 31, 2010, or 4.9%, mainly as a result of increases in one-to-four family and commercial real estate loans. The allowance for loan losses on December 31, 2011, totaled \$7,905,000, or 1.77% of gross loans, compared to \$7,521,000 or 1.76% of gross loans as of December 31, 2010. Impaired loans as of December 31, 2011, were \$6,927,000, or 1.6% of gross loans, compared to \$5,987,000, or 1.4% of gross loans as of December 31, 2010.

Other real estate owned was \$9,538,000 as of December 31, 2011 which is lower than \$10,539,000 as of December 31, 2010, primarily due to sales of other real estate owned. Due to potential changes in the real estate markets, it is at least reasonably possible that management's assessments of fair value will change in the near term and that such changes could materially affect the amounts reported in the Company's financial statements.

Deposits totaled \$818,705,000 on December 31, 2011, a 10.1% increase from the \$743,862,000 recorded at December 31, 2010. This increase occurred in all deposit categories except time deposits under \$100,000.

The Company's stockholders' equity represented 13.0% of total assets as of December 31, 2011 with all of the Company's five affiliate banks considered well-capitalized as defined by federal capital regulations. Total stockholder's equity was \$134,557,000 as of December 31, 2011, and \$121,363,000 as of December 31, 2010. The Company repurchased 122,002 shares of common stock at an average price of \$16.53 for the year ended December 31, 2011.

Shareholder Information:

Return on average assets was 1.41% for the quarter ended December 31, 2011, compared to 1.27% for the same period in 2010. Return on average equity was 10.88% for the quarter ended December 31, 2011, compared to the 9.77% for the same period in 2010. Return on average assets was 1.38% for the year ended December 31, 2011, compared to 1.40% for the same period in 2010. Return on average equity was 10.82% for the year ended December 31, 2011, compared to the 10.91% for the same period in 2010.

The Company's stock, which is listed on the NASDAQ Capital Market under the symbol ATLO, closed at \$19.50 on December 31, 2011. During the fourth quarter of 2011, the price ranged from \$15.25 to \$19.88.

On November 9, 2011, the Company declared a quarterly cash dividend on its common stock, payable on February 15, 2012 to stockholders of record as of February 1, 2012, equal to \$0.13 per share.

Ames National Corporation affiliate Iowa banks are First National Bank, Ames; Boone Bank & Trust Co., Boone; State Bank & Trust Co., Nevada; Randall-Story State Bank, Story City; and United Bank & Trust, Marshalltown.

The Private Securities Litigation Reform Act of 1995 provides the Company with the opportunity to make cautionary statements regarding forward-looking statements contained in this News Release, including forward-looking statements concerning the Company's future financial performance and asset quality. Any forward-looking statement contained in this News Release is based on management's current beliefs, assumptions and expectations of the Company's future performance, taking into account all information currently available to management.
